What is DeFI and Radix?

Decentralized Finance, or “DeFi,” is a global marketplace of financial products, services, and assets that utilize DLT protocols to deliver them in a decentralized, autonomous, trustless, and permissionless manner.

Radix is building a layer 1 platform specifically for DeFi and will be the only decentralized network where developers will be able to build quickly without the constant threat of exploits and hacks, where every improvement will get rewarded, and where scale will never be a bottleneck.

What is Radstars?

It is a Meme token in the RADIX DLT Network where you can make your wishes and dreams come true, that you want to share with each other and make beautiful wishes come true. There are millions of stars in the endless sky and you can have one and make your wishes come true. Radstars have a broad vision of what the world's beauty should be, and watch how the world works and turns with Radstars.

WHY RADSTARS?

RADSTARS CREATE ON RADIX NETWORK

Community project

No Tax

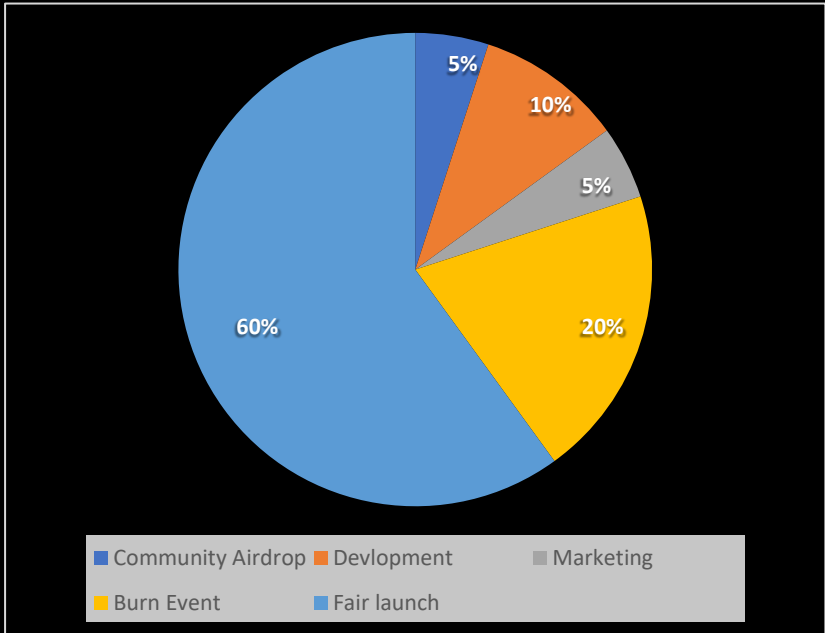

New unique idea

Fast transaction

TOKENOMICS

The fair launch mechanism, with a total supply of 60%, is a mechanism created to support the Radstars community in accelerating community growth regardless of class. New unique ideas let the community form by itself.

BURN EVENT

Burn events have a supply allocation of 20% or 20,000,000 Rstars. Burn will be done gradually to help the development and maintain the price.

Regular burning will be done every month, or sooner on a regular basis.

The burning mechanism is carried out based on the transaction volume.

ROADMAP

| | |
|------|--|
| 2022 | Radstars Created Community Building Listing on Ociswap |
| 2023 | Fair launch Community Activity Website Launch |
| 2024 | Massive Marketing Big Burn Event Radstars Ecosystem |
| 2025 | |
